

I would like to add, proudly, that this project is considered the largest philanthropic project in the Islamic world. It has been implemented without any irregularities, in accordance with the time schedule and the planned budget, and not to forget the high occupancy rate. This all happened by God's grace, and because the needy and the poor have a right in that money which must see the light of day.

We are keen on, just like our father was, delivering the right to its rightful owner wherever he was, and from this act of work comes the blessings and success from God Almighty.

In presenting the experience of Al-Othman's charity money, we aim to make it an example for others and to encourage them to be committed on executing their wills accurately so it can serve them after their death by enjoying the paradise, and insure safety and security for their children. On this occasion, I can't help but to prostrate thankfully to God Almighty, and on my behalf and on behalf of Al-Othman family, I would like to express my gratitude to those who contributed in this monument. And I swear, It is our pleasure to give this success and monument to the Humanitarian Leader, our Emir, may God protect him, who we follow his example, and on his path we walk. We pray to God Almighty to accept this good work and make it in the balance of the good deeds of our father, may God have mercy on him.

We welcome you to The Promenade, where philanthropy and good work are mixed together with business, entertainment, and culture. I remind you that smoking is not allowed, and smokers should respect the health and feelings of other people because there are children, women, and men harmed by your smoke.
