

Chapter Eight: The Knights of Kuwait

Kuwait stands on the shoulders of great men and women. They are giants among men. Knights who were sincere in their love and charity, giving their lives in its service, honoring its name and elevating its institutions. At a time when it is easy to focus on the "trouble makers," I would like use my pen to shed light on the Knights of Kuwait whom I have known and met, and from whom I have learned through the hardships they faced and the heavy responsibilities they carried. I wish to revive hope and happiness in the heart of the reader who, whenever he reads the newspaper, becomes concerned about his country. So I write about them, fully aware that their true number is at least a thousand times greater than the few I am able to mention because our mother Kuwait is the mother of goodness and charity, and her children from all walks of life are the finest knights.
